

MACFAB

PB 100 Vertical Baler

The MACFAB PB 100 vertical baler is an excellent choice for a business looking to compact soft plastics / plastic film and waste plastic packaging. This baler has as an auto compaction cycle as standard, key locked E-stop with reset button, hour counter to monitor servicing, and includes a safe strap bale eject system for easy removal of bales onto a pallet. The PB 100 baler makes a cardboard bale of 100 kg and a plastic film bale of up to 100 kg. The PB 100 can make 2-4 bales per hour depending on the material and site conditions. The bales are normally tied off with plastic strapping/bale and the baler holds 4 rolls of strapping above the door for easy access.

FEATURES

- PLC control panel with a bale full light.
- E-stop button with a key for easy machine lockout of the baler.
- Hour counter to record machine usage and plan maintenance.
- Makes a up to 100 kg bale.
- Easy to eject a bale onto a pallet with strap eject system.
- Retainers to prevent spring back of material in the bale chamber.
- Reel holder at the front of the baler holds 4 rolls of strapping for tying bales.

NOTE: We have a range of strapping available for this machine.

TECHNICAL INFORMATION

Power Supply:	220 - 240 Volt 1 phase
Motor:	1.5 kW 13 Amp
Pressing Force:	Up to 6 Ton
Noise Level:	68 decibels
Cycle time when idle empty:	28 s
Loading aperture width x height:	980 x 479 mm
Width x Depth x Height:	1440 x 1014 x 2399 mm
Weight:	632 kg

BALE INFORMATION

Length x Width x Height:	800 x 980 x 847 mm
Weight:	100kg (depending on material used)
