

MACFAB

PB 150 Vertical Baler

A medium sized vertical baler that can produce up to 150 kg bales of cardboard or plastic film. An excellent option for business such as supermarkets or retail outlets who generate a medium volume of packing waste. The top door has a large opening for easy loading of material into the bale chamber. Bales can be easily ejected with the hydraulic eject cylinder onto a pallet. This baler has three bale tying points to secure bales once compacted.

FEATURES

- Large top door to load waste.
- Suitable for a wide range of businesses generating recyclable waste.
- Easy to eject bale.
- Single phase power supply.

NOTE: We have a range of strapping available for this machine.
