

MACFAB

PB 300 Vertical Baler - High Density

This vertical high density cardboard baler has a low height of under 2 meters, perfect for store rooms with low ceiling heights. The PB 300 has an impressive 20-ton pressing force. It can compact cardboard boxes, plastic film, FIBC bags, and other recyclable materials. It is an excellent choice for businesses to take control of their waste management. Bales can be tied off with both plastic & steel strapping if required.

FEATURES

- PLC control panel with a bale full light.
- E-stop button with a key for easy machine lockout of the baler.
- Hour counter to record machine usage and plan maintenance.
- Low height baler perfect where space is limited.
- Easy to eject a bale with auto eject.
- Safely tie off bales with doors open.

NOTE: We have a range of strapping and wire available for this machine.
